Dear Tom Wheeler,

PHONE:

It is my pleasure to write a letter in support of Charter's proposed merger with Time Warner Cable and acquisition of Bright House Network. As the Director of the Lapeer Area Chamber of Commerce, I consider the merger and creation of New Charter to be a direct correlation with the Chamber's mission statement.

I believe New Charter will dramatically boost the quality of life in Lapeer County through economic and cultural development. New Charter will broaden access to broadband by building upon Bright House Network's broadband program for low-income consumers, it will build out one million line extensions to help provide high-speed service to rural areas and will continue to create thousands of U.S. based jobs.

For the above reasons, I give my enthusiastic support to the proposed merger. I am certain that the advantages of New Charter will only improve the quality of life for Lapeer County.
